# SMARA-PROJECT

- Launched 12/2016
- Supportin Strategic top-priority project, Savilahti-project
- Project team of 3
- This project is part of the Savilahti project and Finland ´s European Regional Development Fund Programme for sustainable Growth and Jobs 2014–2020. Project is funded by The Regional Council of Pohjois-Savo.

# VISION

## SAVILAHTI IS A GENUINE SMART CITY DISTRICT DURING THE 2020s

- Sustainable solutions during the development and planning phase.
- Outlining possibilities and exceeding the limits of conventional urban planning.

## SMARTEST SOLUTIONS FOR SAVILAHTI URBAN DEVELOPMENT PROJECT

Discovering and implementing feasible smart solutions in pivotal fields concerning the construction of new urban areas "the Smart lanes"

# OBJECTIVE

## The objective of the SmaRa-project:

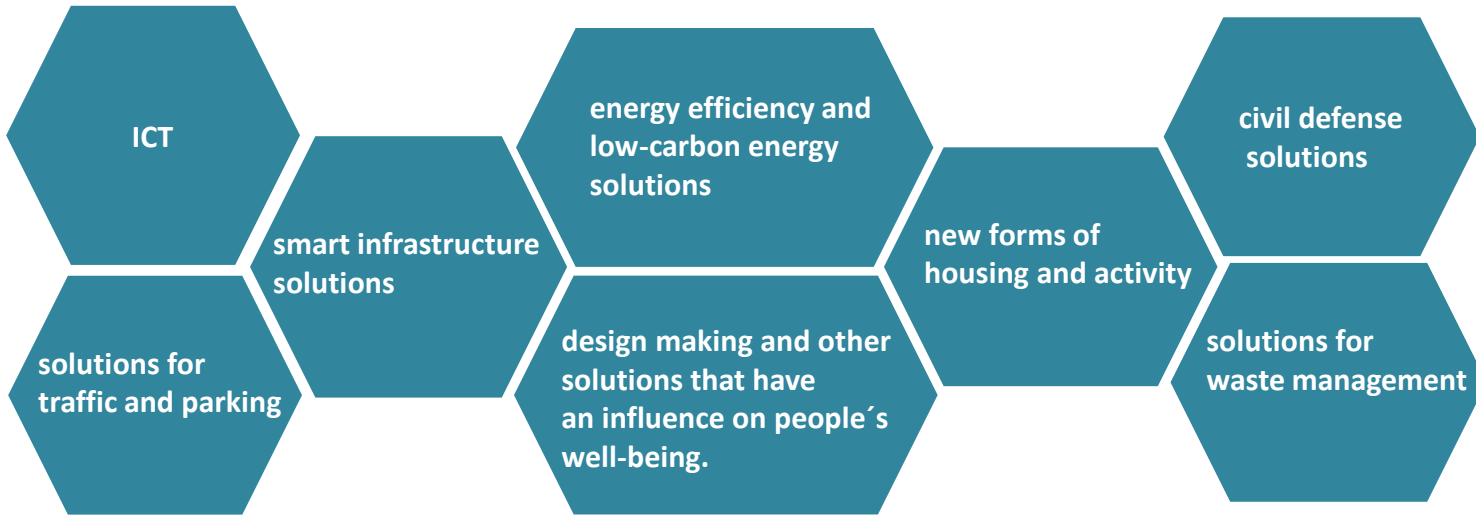

discover and implement investigations and actions concerning Savilahti district that are not normally done in urban planning.

In this project we find out the feasible **smart, innovative** and **low-carbon** solutions which are possible to fulfill during Savilahti district is being built.
